# THE HISTORIC FOSHAY TOWER

The lifelong dream and namesake of businessman Wilbur Foshay, this Art Deco masterpiece was the tallest building west of the Mississippi at the time of its completion in 1929. Nearly 25,000 guests, including cabinet members, senators and congressmen, attended the dedication ceremony, and each guest received a gold pocket watch. The military gave 19-gun salutes. And John Philip Sousa conducted music, including the “Foshay Tower-Washington Memorial March,” which he composed for the occasion.

Six weeks after the building’s dedication, the stock market crashed and Foshay’s corporate empire crumbled. But his monument endures, magnificently.

## THE FOSHAY TODAY

Meticulously restored prior to its opening in 2008, the W Minneapolis – The Foshay infuses architect Leon Eugene Arnal’s Roaring Twenties design with contemporary cool.

The African mahogany and Italian marble gleam brighter than ever. The terrazo floors reflect the glint from gold-plated doorknobs, while intricate engravings, hand-wrought iron and jewel-like inlays grace the elevators. It’s a singular setting for spectacular events.
